Review of Operations and State of Company's affairs.

During the period under review, the Company achieved Revenue from operations of Rs. 12,312.42 Million and recorded a Net Loss of (Rs. 389.17 Million).

Outlook for Cement Industry

The Company is engaged in business of manufacture and sale of cement in India. The products include high-quality OPC and PPC. During the Financial Year ended December 31, 2024, the Company generated a Revenue of Rs. 12,312million, a decrease of 19% compared to previous Financial Year ended December 31, 2023. The decrease is primarily due to decrease in price realisations by 8%, coupled with decrease in volumes of approximately 12% during the Financial Year ended December 31, 2024compared to previous Financial Year ended December 31, 2023. The Company operated at an average capacity utilisation of approximately 71% during the Financial Year ended December 31, 2024compared to approximately 80% during theprevious Financial Year ended December 31, 2023.

The operating margin decreased from 7.0% during previous Financial Year ended December 31, 2023 to 0.6% during the Financial Year ended December 31, 2024, due to lower realisations and higher operating costs due to consolidation of market.

In 2024, the Indian cement industry faced numerous challenges, ranging from moderate capacity utilisation to lower sales realisations which impacted the topline, plus contraction of margins and slower volume growth. However, the industry anticipates an 8% growth in sales in 2025, and we expect the Company to perform better in the future, driven by an increase in rural cement consumption aided by improved farm cash flows, sustained healthy demand for urban housing, an expected increase in Government spending on infrastructure projects, and our in-house implementation of cost-optimisation initiatives through the generation of electricity from our captive solar power plants.

Dividend

The Board of Directors of the Company at their Meeting held on July 25, 2024 have declared an Interim Dividend of INR 1.70 per Equity Share i.e., 17% on face value of INR 10/- per Equity Share fully paid up for the financial Year ended December 31, 2024 and same was paid to the shareholders amounting to Rs. 5,06,68,500 (Rupees Five Crores Six lakhs Sixty-Eight thousand Five hundred) and no further dividend has been recommended for the Financial Year ended December 31, 2024.

Share Capital

The Authorised Share Capital of the Company as on December 31, 2024 is Rs. 50,00,00,000 divided into 5,00,00,000 Equity Shares of Rs. 10 each.

The Paid-up Share Capital of the Company as on December 31, 2024 is Rs. 298,050,000 divided into 29,805,000 Equity Shares of Rs.10 each fully paid up.

Transfer of amount to Reserves

The Board of Directors do not propose to transfer any amount to the General Reserve for the Financial Year ended December 31, 2024.

Variations in Net Worth

The Net Worth of the Company for the Financial Year ended December 31, 2024 is Rs. 8,205.77 Million as compared to Rs. 8,651.95 Million for the previous Financial year ended December 31, 2023.

a) Energy conservation measures taken:

➤ Unit – I (Ramapuram)

a) Energy conservation measures taken:

1. Reduce radiation heat loss by applying insulation heat resistant paint outside surface of Preheater, Cooler and TAD.
2. STG trip when grid fail/fluctuation avoided by proper load shedding
3. Logic made NM118 stop while clinker feeding through NM113 without contribution of NM101 & 102.
4. Installed Energy efficient split AC's (5 star) for Admin building (5 Nos)

➤ Unit – II (Sreepuram)

a) Energy conservation measures taken:

1. Line-1 Polycom 5C1-BCO4 belt removed by arranging direct Y-chute.
2. Line-1 Cement mill CA fan HT Motor (350KW, 6.6KV) replaced with LT Motor (160KW) with VFD.
3. Additional Fly ash feeding system for Line 1 & Line 2 Cement Mills
4. Line-2 Raw mill (VRM) reject belt conveyor motor connection changed from Delta to Star
5. Line-1 new packing plant spout motors connections changed from Delta to Star-
6. Line-2 preheater 5t floor lights(30WX6nos) switched OFF by providing ON/OFF switch near lift door.
7. Line-2 cooler fans-3 & 4 silencer/bell mouths removed to save energy.
8. Usage of tyre oil in place of HSD for Kiln's light up firing for cost saving.
9. New ramp Formation at Line-2, LS crusher for mixing of laterite in Limestone truck movement lead distance reduction

- 10 Line-1 Polycom Baghouse fan Soaft Starter replaced with VFD.
- 11 Hot air duct provided for Line-2 VRM Inlet RAL to minimize RAL jam and reduced stoppages.
- 12 Line-2 cement mill vent baghouse material directly connected to product airside.
- 13 Limestone pile capacity increased from 18000 tons to 22000 tons.
- 14 Line-2 cement mill slide shoe bearing was replaced and avoided mill stoppages.
- 15 Line-1 kiln feed SFM polymer sheet provided for consistency.
- 16 Line-1 Polycom separator bottom bearing auto lubrication system provided
- 17 Line-1 cement mill production enhancement by Polycom gypsum weigh feeder capacity increased
- 18 Utilization of 5% Limestone instead of Fly ash as performance improver for Cement mill production
- 19 Line-2 Cooler outlet bag filter fan stopped by optimizing dust emissions

b) Additional investments and proposals, if any, being implemented for reduction of consumption of Energy:

➤ **Unit – I (Ramapuram)**

The Company has invested Rs. 6.6 million for Energy Conservation Measures.

Independent Auditor's Report

To the Members of Rain Cements Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Rain Cements Limited ("the Company"), which comprise the Balance Sheet as at December 31, 2024, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as the "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at December 31, 2024, its loss including other comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Board Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act

read with the Companies (Indian Accounting Standards) Rules, 2015, as amended,. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit

evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in the paragraph 2(i)(vi) below on reporting under Rule 11(g);
 - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended,;
 - (e) On the basis of the written representations received from the directors as on December 31, 2024, taken on record by the Board of Directors, none of the directors is disqualified as on December 31, 2024, from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph (b) above.
 - (g) With respect to the adequacy of the internal financial controls with reference to these financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
 - (h) In our opinion, the managerial remuneration for the year ended December 31, 2024, has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;
 - (i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer note 34 to the financial statements;
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv.
 - a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
- v. The interim dividend declared and paid by the Company during the year and until the date of this audit report is in accordance with section 123 of the Act.
- vi. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that, audit trail feature is not enabled for direct changes to data when using certain access rights, as described in note 45 to the financial statements. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with in respect of other accounting software.

- Subsidiary Company	Nil

- (b) During the year, the Company has not provided loans, advances in the nature of loans, stood guarantee and provided security to Limited Liability Partnerships or any other parties.

During the year, the investments made, guarantees provided, security given and the terms and conditions of the grant of all loans and advances in the nature of loans, investments and guarantees to companies are not prejudicial to the Company's interest.

- (c) The Company has not provided loans, advances in the nature of loans, stood guarantee and provided security to Limited Liability Partnerships or any other parties.

The Company has granted loans and / or advance in the nature of loans during the year to companies where the schedule of repayment of principal and payment of interest has been stipulated and the repayment or receipts are regular.

- (d) The Company has not provided loans, advances in the nature of loans, stood guarantee and provided security to Limited Liability Partnerships or any other parties.

- (e) There are no amounts of loans and advances in the nature of loans granted to companies, firms, limited liability partnerships or any other parties which are overdue for more than ninety days.

- (f) There were no loans or advance in the nature of loan granted to companies, firms, Limited Liability Partnerships, or any other parties which had fallen due during the year.

The Company has not granted any loans or advances in the nature of loans, either repayable on demand or without specifying any terms or period of repayment to companies, firms, Limited Liability Partnerships, or any other parties. Accordingly, the requirement to report on clause 3(iii)(f) of the Order is not applicable to the Company.

- (iv) Loans, investments, guarantees and security in respect of which provisions of sections 185 and 186 of the Companies Act, 2013 are applicable have been complied with by the Company.

- (v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.

- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to the manufacture of Cement, and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.

- (vii) (a) The Company is regular in depositing with appropriate authorities undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, duty of customs and other statutory dues applicable to it. The provisions for sales-tax, service tax, duty of excise, value added tax and cess are not applicable to the Company. According to the information and explanations given to us and based on audit procedures performed by us, no undisputed amounts payable in respect of these statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

- (b) The dues of goods and services tax, income-tax, sales-tax, service tax, duty of custom, duty of excise, and other statutory dues have not been deposited on account of any dispute, are as follows:

Annexure 2 to the Independent Auditor's Report of even date on the financial statements of Rain Cements Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Rain Cements Limited ("the Company") as of December 31, 2024, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls with reference to these Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail,

accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has maintained, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at December 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

(Continued)

Note 1: Corporate Information

Rain Cements Limited ('the Company') was originally incorporated on May 04, 1999 and is domiciled in India. The Company is engaged in the business of manufacture and sale of cement. Company's production facilities are located at Suryapet district in the State of Telangana and Nandyala district in the State of Andhra Pradesh.

Rain Cements Limited is a wholly owned Subsidiary of Rain Industries Limited.

Note 2: Material Accounting Policies**a) Basis of preparation of financial statements****(i) Statement of compliance**

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time, notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act.

The financial statements have been prepared on a going concern basis. Relevant Ind AS effective as on the Company's annual reporting date December 31, 2024 have been applied. The accounting policies are applied consistently to all the periods presented in the financial statements.

The financial statements were authorised for issue by the Company's Board of Directors on February 18, 2025.

(ii) Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest millions with 2 decimals, unless otherwise indicated.

(iii) Basis of measurement

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value:

Items	Measurement basis
Derivative financial instruments	Fair value
Certain financial assets and liabilities (refer accounting policy regarding financial instruments)	Fair value
Net defined benefit asset/liability	Fair value of plan assets less present value of defined benefit plan obligation
Inventories	Lower of cost or net realisable value
Borrowings	Amortised cost using effective interest rate method
Provision for site restoration	Fair value

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

(iv) Use of estimates and judgements

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Accounting estimates could change from period to period. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis and appropriate changes are made as management becomes aware of changes in circumstances surrounding the estimates. Revisions to accounting estimates are reflected in the period in which such changes are made and if material, their effects are disclosed in the financial statements.

Assumptions and estimation uncertainties

Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

- a) measurement of defined benefit obligations: key actuarial assumptions (Refer note 38)
- b) recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources (Refer note 34)
- c) useful life of property, plant and equipment and intangible assets (Refer note 2 (e) and (f))
- d) impairment of financial assets and non-financial assets (Refer note 42)
- e) recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used
- f) site restoration provision (Refer note 19)
- g) provision for inventories (refer note 10)

(v) Current and non current classification

The Company has identified 12 months as its operating cycle for the classification of assets and liabilities into current and non-current.

Current assets and liabilities include the current portion of non-current financial assets and liabilities.

(vi) Measurement of Fair values:

Accounting policies and disclosures require measurement of fair value for both financial and non-financial assets. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in Note 41.

- Disclosures for valuation methods, significant estimates, and assumptions

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

(Continued)

- Quantitative disclosures of fair value measurement hierarchy
- Financial instruments (including those carried at amortised cost)

(b) Financial instruments**Financial Assets:****Initial recognition and measurement**

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under Ind AS 115.

All financial assets not classified as measured at amortised cost or Fair Value through Other Comprehensive Income (FVOCI) as described above are measured at Fair value through Profit and Loss (FVTPL). This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI or at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Subsequent measurement and gains and losses

Financial assets at FVTPL: These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial assets at amortised cost : These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Debt investments at FVOCI : These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVOCI : These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

(Continued)

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e., removed from the Company's balance sheet) when:

- i) The rights to receive cash flows from the asset have expired, or
- ii) The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial liabilities:**Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts.

(b) Financial instruments**Subsequent measurement**

Financial liabilities are subsequently measured at amortised cost using the Effective Interest Rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting:

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or realise the asset and settle the liability simultaneously.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

(Continued)

(c) Revenue Recognition

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.

Revenue from sale of goods is recognised at the point in time when control of the goods is transferred to the customer. The revenue is measured on the basis of the consideration defined in the contract with a customer, including variable consideration, such as discounts, volume rebates, or other contractual reductions.

Variable consideration includes incentives, volume rebates, discounts and liquidated damages etc. It is estimated at contract inception considering the terms of various schemes with customers and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognised will not occur when the associated uncertainty with the variable consideration is subsequently resolved. It is reassessed at end of each reporting period.

(d) Other Income

Interest income or expense is recognised on time proportion method.

(e) Property, plant and equipment

Property, plant and equipment are stated at cost/deemed cost less accumulated depreciation and impairment loss, if any.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant, and equipment. Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Depreciation for property, plant and equipment are provided at the rates specified in the Schedule II to the Companies Act, 2013. Wherever the useful life of property, plant and equipment is not in line with Schedule II to the Act, depreciation is provided over the useful life which is based on the technical evaluation and assessment. The Company believes that the useful lives adopted by it, best represents the period over which an asset is expected to be available for use. Accordingly, for these assets, the useful lives estimated by the Company are different from those prescribed in the Schedule. The Company uses lease period for calculating depreciation for buildings taken on lease.

Depreciation is calculated on a pro-rata basis from the date of installation till the date the assets are sold or disposed.

Gains and losses on disposal of tangible property, plant and equipment are determined as the difference between net sales proceeds and the carrying amount and are presented in the Statement of Profit and Loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

(Continued)

(e) Property, plant and equipment

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

The residual values, useful lives, and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Asset Description	Useful Life
Freehold Mining land	125 years
Buildings	3 to 77 years
Plant & Machinery	2 to 25 years
Furniture & Fixtures	8 to 10 years
Vehicles	5 to 11 years
Office Equipment's	3 to 5 years

Cost of assets not ready for intended use, as on the balance sheet date, is shown as capital work-in-progress.

Freehold land is not depreciated.

Depreciation is calculated on a pro-rata basis from the date of installation till the date the assets are sold or disposed. The cost of land used for mining is amortised over the estimated period of mining rights granted and leasehold land is amortised over the lease period.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major overhaul is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in consolidated statement of profit and loss as incurred.

The residual values, useful lives, and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Provision for site restoration

In accordance with the Company's environmental policy and applicable legal requirements, a provision for site restoration in respect of contaminated site is recognised as and when as the site is used and related restoration or environmental obligations occur. The provision is measured at the present value of the best estimate of the cost of restoration or agreed redemption plan.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

(Continued)

(f) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

The useful lives of intangible assets are assessed as finite. Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the Statement of Profit and Loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Asset Description	Useful Life
Software	3 years

(g) Inventories

Inventories are valued at lower of cost (including prime cost and other overheads incurred in bringing the inventories to their present location and condition) and net realisable value. The comparison of cost and net realisable value is made on an item-by-item basis. Raw materials, packing materials and stores and spares are valued at cost computed on moving weighted average basis, after providing for obsolescence, if any. Raw materials, packing materials and other supplies held for use in production of inventories are not written down below cost except in cases where material prices have declined, and it is estimated that the cost of the finished products will exceed their net realisable value.

Finished goods and work in progress are valued at lower of cost and net realisable value. Cost is determined on a weighted average basis and comprises material, labour, and applicable overhead expenses. The net realisable value of materials in process is determined with reference to the selling prices of related finished goods. Stores and spares are valued at cost determined on weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

Traded goods are valued at lower of cost and net realisable value. Goods in transit are valued at cost.

(h) Impairment of non-financial assets

The Company assesses at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

(Continued)

For the purpose of impairment testing, assets are grouped together into the smallest group of assets (Cash Generating Unit or CGU) that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset). Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

The Company's corporate assets (e.g., central office building for providing support to various CGUs) do not generate independent cash inflows. To determine impairment of a corporate asset, recoverable amount is determined for the CGUs to which the corporate asset belongs.

An impairment loss is recognised in the Statement of Profit and Loss in the respective financial years, if the carrying amount of the assets or CGU exceeds its recoverable amount.

If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed, and the asset is reflected at the recoverable amount subject to a maximum of amortised historical cost as per requirement of Ind AS 36 "Impairment of Assets".

(i) Impairment of financial assets

The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost. At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward-looking information.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

(Continued)

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than the reasonable period of time which is usually the credit period. The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); and
- the financial asset is 180 days or more past due.

Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive). Presentation of allowance for expected credit losses in the balance sheet Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

(j) Foreign currency transactions and balances

Transactions in foreign currency are recorded at the exchange rates prevailing on the date of the transactions. Monetary assets and liabilities denominated in foreign currency are restated at the prevailing year end rates. The resultant gain/loss upon such restatement along with the gain/loss on account of foreign currency transactions are accounted in the Statement of Profit and Loss. In respect of items covered by forward exchange contracts, the premium or discount arising at the inception of such a forward exchange contract is amortised as expense or income over the life of the contract. Any profit or loss arising on cancellation or renewal of such a forward contract is recognised in the Statement of Profit and Loss.

(k) Retirement and other employee benefits**Defined contribution plans**

The Company makes specified monthly contribution towards employee provident fund to Government administered provident fund scheme, which is a defined contribution scheme. The Company's contribution is recognized as an expense in the Statement of Profit and Loss during the period in which the employee renders the related service. The Company has no further obligations beyond its monthly contributions.

Defined benefit plans

For defined benefit plans, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each balance sheet date. Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

(Continued)

- The date that the Company recognises related restructuring costs Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:
- Service costs comprising current service costs, past-service costs, gains, and losses on curtailments and nonroutine settlements; and
- Net interest expense or income.

When the benefits of a plan are changed or curtailed, the resulting change in the benefit that relates to the past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in the Statement of profit or loss. The Company recognises the gains and losses on the settlement of a defined benefit plan when settlement occurs.

Compensated absence policy :

The employees of the Company are entitled to compensated absences. The employees can carry forward a portion of the unutilized accumulating compensated absences and utilise it in future periods or encash the leaves during the period of employment or retirement or at termination of employment. The Company records an obligation for compensated absences in the period in which the employee renders the services that increases this entitlement. The Company measures the expected cost of compensated absences as the additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the end of the reporting period. The Company recognises accumulated compensated absences based on actuarial valuation using the projected unit credit method carried out in accordance with Ind AS-19 "Employee Benefits" at the end of the year. Non-accumulating compensated absences are recognised in the period in which the absences occur.

Short-term employee benefits

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus, and ex-gratia. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense as the related service is rendered by employees.

(I) Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

(Continued)

asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated amortisation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant, and equipment.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and consolidated statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in consolidated statement of profit and loss.

The Company has opted the exemption provided under Ind AS 116 Leases for low value and short-term leases of all assets that have a lease term of 12 months or less. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

(m) Tax expense

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current income tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

(Continued)

income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of taxable temporary differences associated with investments in subsidiary, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.
- taxable temporary differences arising on the initial recognition of goodwill.

(m) Tax expense

The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Due to changes in any tax estimates for previous year, the same is presented in financials as prior period taxes.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

(Continued)

Deferred tax relating to items recognised outside statement of profit and loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

(n) Statement of cash flows and cash and cash equivalents

Cash flows are reported using the indirect method, whereby net profit/ (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing, and financing activities of the Company are segregated.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(o) Investments in subsidiary

The Company's investment in its subsidiary is carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, the difference between net disposal proceeds and the carrying amounts are recognised in the profit or loss.

(p) Provisions and contingencies

A provision is recognised when the Company has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Provisions for onerous contracts, i.e. contracts where the expected unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 2024

(Continued)

to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event based on a reliable estimate of such obligation.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Where the Company expects a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain.

Contingent liabilities are disclosed in the notes to the financial statements, when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources.

Provision for site restoration

The Company provides for the estimated expenditure required to restore quarries and mines. The restoration expenses are estimated basis life of mine, available mineral reserves, obligations in mines agreement as per mine closure plan.

Site restoration expenses is incurred on an ongoing basis as and when required and until the closure of the quarries and mines. The actual expenses may vary based on the nature of restoration and the estimate of restoration expenditure. The total estimate of restoration expenses is reviewed periodically, on the basis of technical estimates.

(q) Dividend declared

The Company recognises a liability to make cash distributions to equity holders of the parent when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity. Interim dividends are recorded as a liability on the date of declaration by the Board of directors of the Company.

(r) Accounting Standards adopted in Current year:

The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 dated March 31, 2023, to amend the following Ind AS which are effective for annual periods beginning on or after April 01, 2023. Accordingly, the Company has adopted these first-time amendments, with effect from the financial year beginning January 01, 2024.

1. Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12, Income Taxes:

The amendments narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases.

The Company previously recognised for deferred tax on leases on a net basis. As a result of these amendments, the company has recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right of use assets. Since, these balances qualify for offset as per the requirements of paragraph 74 of Ind AS 12, there is no impact on the balance sheet. There was also no impact on the opening retained earnings as at January 1, 2023.

2. Amendments to Ind AS 1, Presentation of Financial Statements:

The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies and adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures.

The amendments had an impact on the Company's disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the Company's financial statements.

3. Amendment to Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors:

The amendments clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. It has also been clarified how entities use measurement techniques and inputs to develop accounting estimates.

The amendments had no material impact on the Company's financial statements.

Recent Accounting pronouncements not yet adopted:

During the year 2024, MCA has amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2024, Companies (Indian Accounting Standards) Second Amendment Rules, 2024, Companies (Indian Accounting Standards) Third Amendment Rules, 2024 applicable for annual periods beginning on or after April 1, 2024, as below:

- a. Paragraph 29 of INDAS 107 – Financial Instruments – Disclosures has been amended to include that fair values are not required to be disclosed for Lease Liabilities.
- b. Amendment to INDAS 116 relating to Accounting for Sale and Lease Back Transaction by inserting a new para 102A, amendment in Appendix C notifying effective date for the amendment and Appendix D has been inserted for illustrative examples on implementing the amendment.

Based on preliminary assessment, the amendments are not expected to have a material impact on the Company's financial statements.

Explanatory Notes:

- The Company has a process whereby periodically all long-term contracts are assessed for material foreseeable losses. At the year end, the Company has reviewed and ensured that there are no material foreseeable losses on such long term contracts which needs to be provided for in the books of account other than the provisions already made in books of account.
- The Company has reviewed all its pending litigations including legal proceedings initiated in the ordinary course of business. The Company does not expect the outcome of these proceedings to have a material and adverse effect on its financial position, except as disclosed above and accordingly no adjustment in respect thereof is expected.
- On December 24, 2024, Company received a demand notice from the Deputy Commissioner (CT) Nalgonda (Government of Telangana), demanding a sum towards repayment of Sales Tax Deferment scheme. Aggrieved by the same, the management filed a writ petition on the grounds that the demanded amount has already been remitted to the Government of Andhra Pradesh, demand of the same amount again would lead to double taxation, which is in violation of Article 265 of the Constitution of India. Based on the above, the Management believes that there would be no cash outflow in this regard.
- On October 25, 2024, Company received an order from Andhra Pradesh Electricity Regulation Commission (APERC) levying Fuel Power Purchase Cost Adjustment (FPPCA) Charges for FY 2024-2025 through regular monthly electricity bills. The company, for earlier years has received an order for true-up adjustments to these charges which are provided for in the books of accounts and sub-judice. However, pending receipt of final order for FY 2024-25, the management believes that a reliable estimate for true-up/true-down cannot be made as the company does not possess necessary information to calculate such charges.

b) Defined benefit plans - Gratuity

The Company has a defined benefit gratuity plan in India, governed by the Payment of Gratuity Act, 1972. Entitles an employee, who has rendered at least five years of continuous service, to gratuity at the rate of fifteen days wages for every completed year of service or part thereof in excess of six months, based on the rate of wages last drawn by the employee concerned.

Inherent risk:

The plan is defined benefit in nature which is sponsored by the Company and hence it underwrites all the risk pertaining to the plan. In particular, this exposes the Company, to actuarial risk such as adverse salary growth, change in demographic experience, inadequate return on underlying plan assets. This may result in an increase in cost of providing these benefits to employees in future. Since the benefits are lump sum in nature, the plan is not subject to longevity risk

The following table sets forth the status of the Gratuity plan of the Company and the amounts recognised in the balance sheet and the statement of profit and loss:

(vi) The details of investments in plan assets are as follows:

Particulars	As at December 31, 2024	As at December 31, 2023
Life Insurance Corporation of India	100%	100%

(vii) Principal Actuarial assumptions used:

Particulars	As at December 31, 2024	As at December 31, 2023
Discount rates on benefit obligations	6.90%	7.25%
Expected salary increase rates	7.50%	8.00%
Demographic assumptions		
Retirement age	58 Years	58 Years

The discount rate is based on the prevailing market yields on Indian government securities as at the balance sheet date from the estimated term of the obligations. The estimates of future salary increase considered in the actuarial valuation take into account factors like inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

Assumptions regarding future mortality and experience are set in accordance with published rates under Indian assured life's mortality (2012-2014) Ult table.

(viii) Sensitivity analysis:

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts for the year ended December 31, 2024 shown below:

Particulars	Increase (%)	Decrease (%)
Discount rate (0.5% Movement)	(1.74)	1.81
Future salary growth (0.5% Movement)	1.67	(1.63)

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts for the year ended December 31, 2023 shown below.

Particulars	Increase (%)	Decrease (%)
Discount rate (0.5% Movement)	(1.83)	1.90
Future salary growth (0.5% Movement)	1.78	(1.74)

Although the analysis does not take into account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

The expected return on plan assets is based on actuarial expectation of the average long term rate of return expected on investments of the Funds during the estimated term of the obligations. The principal actuarial assumptions used for the computation of defined plan are also used for the computation of compensated absences of long term benefit.

(ix) The Company expects to contribute a sum of INR 46.62 to the plan for the next annual reporting period (31 December 2023: INR 35.63)

Note 40: Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximize the shareholder value.

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital, as well as the level of dividends to equity shareholders. The Board of Directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowing and the advantages and security afforded by a sound capital position. The Company monitors capital using a ratio of 'Net debt' to 'equity'. For this purpose, adjusted net debt is defined as total interest-bearing loans and borrowings less cash and cash equivalents. The Company's Net debt to equity ratio is as follows.

Particulars	As at December 31, 2024	As at December 31, 2023
Total borrowings, net of cash and cash equivalents*	(307.10)	(239.58)
Total equity attributable to the equity shareholders of the company	8,205.77	8,651.94
Net debt to equity ratio	(0.04)	(0.03)

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

* Borrowings are less than cash and cash equivalents as at December 31, 2024 and December 31, 2023 due to repayment

- b) Investments of INR 0.09 Mn (December 31, 2023 : INR 0.09 Mn) are Level-3 fair value investments.

Measurement of fair values:

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Note 42: Financial Risk Management

The Company has put in place risk management systems as applicable to the respective operations. The following explains the objective and processes of the Company. The Company has a system based approach to risk management, anchored to policies and procedures and internal financial controls aimed at ensuring early identification, evaluation and management of key financial risks (such as market risk, credit risk and liquidity risk) that may arise as a consequence of its business operations as well as its investing and financing activities. Accordingly, the Company's risk management framework has the objective of ensuring that such risks are managed within acceptable and approved risk parameters in a disciplined and consistent manner and in compliance with applicable regulation. It also seeks to drive accountability in this regard.

The Company has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk
- Market risk

Credit risk:

Credit risk is the risk of financial loss arising from counter-party failure to repay or service debt according to the contractual terms or obligations. Credit risk encompasses both the direct risk of default and the risk of deterioration of creditworthiness as well as concentration risks and arises primarily from trade receivables, investments, cash and cash equivalents and balances with banks. The maximum exposure to credit risk is equal to the carrying value of these financial assets.

The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors. The Company has a policy of dealing only with credit worthy counter parties and obtaining sufficient collateral, where appropriate as a means of mitigating the risk of financial loss from defaults.

Trade receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

To assess whether there is a significant increase in credit risk the Company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information. Especially the following indicators are incorporated:

- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations actual or expected significant changes in the operating results of the borrower
- significant changes in the expected performance and behavior of the borrower, including changes in the payment status of borrowers in the Company and changes in the operating results of the borrower
- Based on the above analysis, the Company does not expect any credit risk from its trade receivables for any of the years reported in this financial statements.

Gross receivables	531.37	262.58
Credit impaired/Loss allowance	(34.71)	(29.24)
Net receivables	496.66	233.34

No single customer accounted for more than 10% of the trade receivable as of December 31, 2024 and December 31, 2023. There is no significant concentration of credit risk.

Investments

The Company limits its exposure to credit risk by generally investing in subsidiaries and liquid securities. The Company does not expect any losses from non-performance by these counter-parties, and does not have any significant concentration of exposures to specific industry sectors or specific country risks.

Cash and cash equivalents (including bank balances, fixed deposits and margin money with banks):

Credit risk on cash and cash equivalent is limited as the Company generally transacts with banks with high credit ratings assigned by international and domestic credit rating agencies.

Liquidity risk:

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risk to the Company's reputation. The Company's treasury department is responsible for liquidity and funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

The Company aims to maintain the level of its cash and cash equivalents and other highly marketable debt investments at an amount in excess of expected cash outflows on financial liabilities (other than trade payables). The Company also monitors the level of expected cash inflows on trade receivables and loans together with expected cash outflows on trade payables and other financial liabilities.

The table below provides details regarding the remaining contractual maturities of significant financial liabilities at the reporting date. The amounts are gross and undiscounted, and include contractual interest payment and excludes impact of netting arrangements (if any):

Note 44: Segment Reporting

Ind AS 108 "Operating segment" establishes standard for the way public business report information about operating segment and related disclosures about product and services, geographic areas and major customers. Based on "management approach" as defined in Ind AS 108, operating segments are to be reported in a manner consistent with internal reporting provided to the Chief Operating Decision Maker (CODM). All operating segments results are reviewed regularly by the Company's Managing Director to make decisions and assess their performance. The CODM evaluates the company's performance and allocates resources an overall basis. The Company's sole reportable segment is manufacture and sale of Cement. Further, the business operations of the Company are primarily concentrated in India, and hence, the Company is considered to operate only in one geographical segment. Accordingly, there are no disclosures to be provided under Ind AS 108.

Note 45: Audit Trail

The Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software, except that audit trail feature is not enabled at the database level insofar as it relates to the accounting software. Further no instance of audit trail feature being tampered with was noted in respect of accounting software where the audit trail has been enabled.
